

Time

"Time" can be divided into the time that we perceive in our movement and the time of God. When considering God's Time it is mostly different than our time and also superseding our time.

At God's Time, Will and the "Words of God", we think of the visions and prophecies which he did to his entrusted servants. There are powerful visions for example entrusted to Abraham about a future period of about 400 years. There is a time span explained of Abraham's offspring which God entrusted to him, the Egyptian oppression, redemption and return of his offspring (Gen 15: 13-16). Who also has a very special prophecy and several visions received was Daniël and that of a time which extends until the end time! What is special is that Daniël also knew his time well, see Daniël 9: 2; "And during his first year as king. I found out from studying the writings of the prophets that the Lord has said to Jeremiah. "Jerusalem will lie in ruins for seventy years". From these visions / prophecies / timing, you can draw a conclusion that these are unconditional. Unconditional so it will happen regardless of what our personal "watch" is telling us. Such things like it is hopeless, will it be fine (?), etc. But there are also conditional circumstances such as the condition where Joshua had to meet the criteria of six days walking around the city of Jericho and on the seventh day seven rounds with the rams' horns and trumpets cheers (Josh 6: 2-5).

The mighty of God's Word is that these are spiritual and therefore directly applicable. Our words (promises) have to do with inertia. If you for example promised someone a cake you either make it or buy it. When the Lord makes a promise, He can provide it to you immediately.

We live in a time when a lot is happening. May we therefore be sensitive as Daniël (and in the book of Revelation) to know the times of God.

Wish you God's Mercy and Truth (Prov.3: 3)!
